

WASTEWATER MADE CLEAR™

WASTEWATER MADE CLEAR™

With the capacity of good, clean water in short supply, Advance Waste & Water Technology™, Inc. (AWWT™) is committed to making a difference. The Management of AWWT has over 100 years of combined experience specializing in construction, design, and management of chemical, non-chemical, and liquid waste removal services as well as waste and water treatment services. Our mission is to provide a variety of water treatment solutions for contaminated water so it can be returned safely to the environment for municipal, private, industrial, and commercial clients in all industries.

YOUR COST EFFECTIVE WASTEWATER TREATMENT SPECIALISTS

At AWWT, we understand that disposal and transportation costs are crucial to keep your business on track and on budget.

That is why we are the exclusive disposal facility for Long Island & the New York Metropolitan area.

We are committed to providing our clients competitive pricing and rapid disposal solutions.

TOP REASONS TO PARTNER WITH AWWT

- We are the ONLY wastewater treatment plant on Long Island certified to accept your oil & petroleum impacted water
- Competitive pricing options
